--- The dark blue modern Gothic surcharge *4c - EXCISE / TAX* on the 1/9th pound Series "C" - 1943-44 ---

RP-1715 - *coarse roulette* - with Series "C" control numbering ---

In 1943, needing 1/9th pound strips before the "Series of 1942" plates were ready, BABN surcharged the obsolete Series "C" *coarse roulette* sheets of **RP-900** and **RP-901** as provisionals using the same format as was in current use on the "Series of 1942", but using ***blue ink*** - i.e. a slopping modernized 4 mm. Roman ***4¢*** to the left of a 2 mm. two-line slopping dark blue ***EXCISE / TAX***. The tab length on the scan indicates that some were L.W.E. strips.

The control numbers continue the 1/9th pound Series "C" sequence, so the sheets of **RP-900/901** must have been already *control-numbered* but *surcharge-free* when removed from the BABN vault. A similar surcharge can also found on the Series "C" remnant 2/17th and on the1/8th pound strips.

Legislation subsequent to the Budget of 1947 abolished the mandatory printing of the excise tax on the stamps, and in the course of time as the surcharged strips were used up (by mid-1948) the imperforate unsurcharged "Series of 1942" 1/9th pound strip **RP-1781** came into use. The control numbering, which had been *pre-printed* on the base 1/9th pound strip in 1944, continued without a reset. *The strip illustrated below is not in the collection*.

Extracted from "BNA Topics", May 1955, Vol. 12, No. 5, page 150 - R. Del French "Revenue Group News"

"There are some new tobacco stamps. The first lot is certain denominations of the current strip stamps surcharged **1/8** and issued early in January 1955. I cannot describe them, as I have not seen them as yet. These were used because a strike in the engraving company's plant made the supply of 1/8th pound stamps short. The life of these stamps was brief; the regular ones were available again late in the month."

Extracted from "BNA Topics", June 1955, Vol. 12, No. 6, page 180 - R. Del French "Revenue Group News"

"More about the surcharged tobacco stamps referred to last month, by courtesy of Mr. L. A. White of Customs and Excise, Ottawa: 'There were two varieties **1/8** on 2/21st pounds, and **1/8** on 1/9th pounds, both imperforate. The former was issued on January 13, 1955, and the latter on January 31, 1955. These were distributed to practically every manufacturer packing tobacco in this size, so they should not be too uncommon'."

Still later, the remaining 1/9th pound sheets of **RP-1781** saw regular use. The final strips have been cancelled with three sets of three thin vertical *straight* red lines. This is characteristic of "Rock City Tobacco", although the company code is not used. The two digit cancellation by "Imperial Tobacco", Granby, dates from January 1959. **Note**: three *wavy line* cancellations, in various colours, come from "Macdonald Tobacco".

In 1959, to use the old 1/8th pound strips, BABN overprinted **RP-1785** with a 6 mm. central dark blue Roman **1/9** and three 13 x 1½ mm. dark blue horizontal stacked *killer bars* at the ends, as **RP-1791**. Since the controls match the 1/9th pound sequence, the base 1/8th pound strips had not yet been control numbered.

The overprinted strip illustrated below, without company code or dating is cancelled by the three sets of three thin red vertical lines, a format commonly used by "Rock City Tobacco". The overprint format is also identical to that used on **RP-1821** - the **1/9** on 2/17th pound, Type II "Coat-of-Arms", strip.

The control numbers on the 1/9th pound strip have run through the introductory and lettered alphabetic sequences from **0000001** to at least **H8421095** - so at this point the 1/9th pound total is 88,421,095 strips.

Note: the introductory numbers, and each subsequent alphabetic letter sequence, cover 10,000,000 strips

---

There is a large gap in the control number sequence at this point. The above Type I "Coat-of-Arms" strip from 1955 is **H8421095** while the following Type II "Coat-of-Arms" strip is **N4383928**, and the next strip has begun a new control sequence in 1957 at **1536670**.
